

IAHR 2017 CONGRESS JHR SPECIAL ISSUE

NO	PAPER ID	TITLE	CORRESPONDING AUTHOR	AFFILIATION	EMAIL
1	0241	Effect Of Buoyant Jets Merging On Mean Kinetic Energy Flux	Prof. Panayotis Yannopoulos	University of Patras, Greece	yannopp@upatras.gr
2	0120	Debris Dynamics And Associated Loads In Extreme Hydrodynamic Conditions	Mr. Jacob Stolle	University of Ottawa, Canada	jstol065@uottawa.ca
3	0965	Assessment Of Debris Issues Impacting Design Of A Flood Diversion Project In A Large Scale Physical Model	Dr. Andrew Cornett	National Research Council of Canada	andrew.cornett@nrc-cnrc.gc.ca
4	0167	Flow Resistance Of Submerged Rigid Vegetation: Focus And Validation On Two Layer Approach	Assoc. Prof Paola Gualtieri	University of Naples Federico II, Italy	paola.gualtieri@unina.it
5	0540	The Difference In Riparian Vegetation Pattern Based On The Channel Characteristics And The Mechanism Of Its Formation	Prof. Takashi Asaeda	Saitama University, Japan	asaeda@mail.saitama-u.ac.jp
6	0380	Improvement Of Flow Pattern In Multi-Unit Pumping Station With Side-Intake Based On CFD Numerical Simulation	Prof. Chao Liu	Yangzhou University, China	ydliu@126.com
7	0554	Large Eddy Simulation Of A Round Thermal Buoyant Jet In A Cross Flow	Ms. Yizhou Xiao	Wuhan University, China	vivianshaw1117@163.com

8	0186	Influence Of Longitudinally Discontinuous Vegetation Arrangement Pattern On Turbulent Structure In Open Channel	Assoc. Prof Takayuki Tanaka	National Institute of Technology, Japan	tanaka-c@toyota-ct.ac.jp
9	0468	Suppression Of Vortex Induced Vibration Using Vortex Generators In 2D Computational Fluid Dynamics	Dr. Siti Fatin Mohd. Razali	University Kebangsaan Malaysia	fatinrazali@ukm.edu.my
10	0593	Research On The Impact Of Boussinesq Coefficient For Numerical Schemes To Model Dam-Break Floods	Dr. Dongfang Liang	Shanghai Jiao Tong University, China	d.liang@sjtu.edu.cn
11	0950	CFD Study Of A Spatial Submerged Hydraulic Jump	Dr. Ram Balachandar	University of Windsor, Canada	rambala@uwindsor.ca
12	0640	East China Sea Wave Height Trends Analysis Using 20cr Reanalysis	Dr. Lingli Wu	Hohai University, China	lingliwu036@163.com
13	0942	Evaluation Of Longshore Sediment Transport Rate Along The Thu Bon River Delta Coastlines In Viet Nam	Prof. Hitoshi Tanaka	Tohoku University, Japan	hitoshi.tanaka.b7@tohoku.ac.jp
14	0661	Estimation Of Wave Propagation Velocity On A Channel With Smooth And Rough Bed	Mr. Davide Wüthrich	Ecole Polytechnique Fédérale de Lausanne, Switzerland	davide.wuthrich@epfl.ch
15	0851	Development Of Three-Dimensional Water Quality Model And Its Application To A Long-Narrow Bay	Dr. Songlin Han	Changjiang River Scientific Research Institute, China	hansl86@qq.com
16	0114	Numerical Investigation Of Nonlinear M4 Overtide On The Backwater Hydrodynamics In Tidal Rivers	Assoc. Prof Huayang Cai	Sun Yat-sen University	caihy7@mail.sysu.edu.cn

17	1091	Integrated Numerical Modeling Of Wave-Porous Structure By Finite Volume Method	Ms. Paran Pourteymourie	K.N. Toosi University of Technology, Iran	ppoorteymourie@mail.kntu.ac.ir
18	1636	Impact Of Submerged Zone Depth On Stormwater Pollutants Removal In Tropical Biofiltration Systems	Dr. Amin Talei	Monash University Malaysia	amin.talei@monash.edu
